### Explanation from organization committee:

The 2<sup>nd</sup> Beijing Open is a tournament aiming at the fostering and promotion of Pitch & Putt in China.

If the international players are willing to travel and play in Beijing, we will offer a warm welcome. Because China is an ancient civilized country with a long history and rapid development, traveling and experiencing China, visiting the ancient oriental civilization, will be a dream of many overseas friends.

Because there is a long distance between China and Europe, as well as great cultural differences, we intend not only to organize the **II International Beijing Pitch & Putt Open** fully complying with the regulations and constitution of FIPPA, but we also recommend the most wonderful tour itinerary. We have contracted the services of a most reputable travel agency and at the most favorable price to all the international players who volunteer to come to China. The reputation of the chosen tourist agency is such that we of the **Chinese Pitch & Putt Association** assure all participants and players an excellent competition together with a professionally organised visit to China, with the safety of our guests in mind.

CPPA invites all FIPPA members to consider the options outlined below and arrange for players to inscribe through their national federations. **We would expect participants to inscribe for option A, B or C before April 1<sup>st</sup>**. stating room options (single, double or twin rooms). Participants should apply to their respective Chinese Embassies for tourist entry visas. Participants may make arrangements for international flights to and from Beijing either with local travel agencies or via direct booking through the airline's websites.

It is expected that all the players, who would like to travel and play in China, inscribe to respective national federations first. And then each national federation should send the list by email to FIPPA as well as CPPA.
